"Empowering Excellence in ElectricalSolutions"

ABOUT US

Empowering Excellence in Electrical Solutions Since 1976

For nearly five decades, **AL DAWLIA-IEC** has been one of Egypt's most trusted names in low-voltage electrical panel building, smart building automation, and industrial electrical solutions.

Founded in **1976**, the company has grown from a small workshop in Cairo into a leading regional manufacturer serving Egypt and the MENA region.

With two fully equipped production facilities in 6th of October City, and more than 7,000 m^2 of advanced manufacturing space.

AL DAWLIA-IEC delivers high-precision solutions that power infrastructure, commercial projects, residential developments, and industrial sectors.

Our workforce of **130+** highly qualified engineers, technicians, and specialists combines deep industry experience with a commitment to innovation, ensuring every product meets the highest standards of performance, safety, and durability.

VISION & MISSION

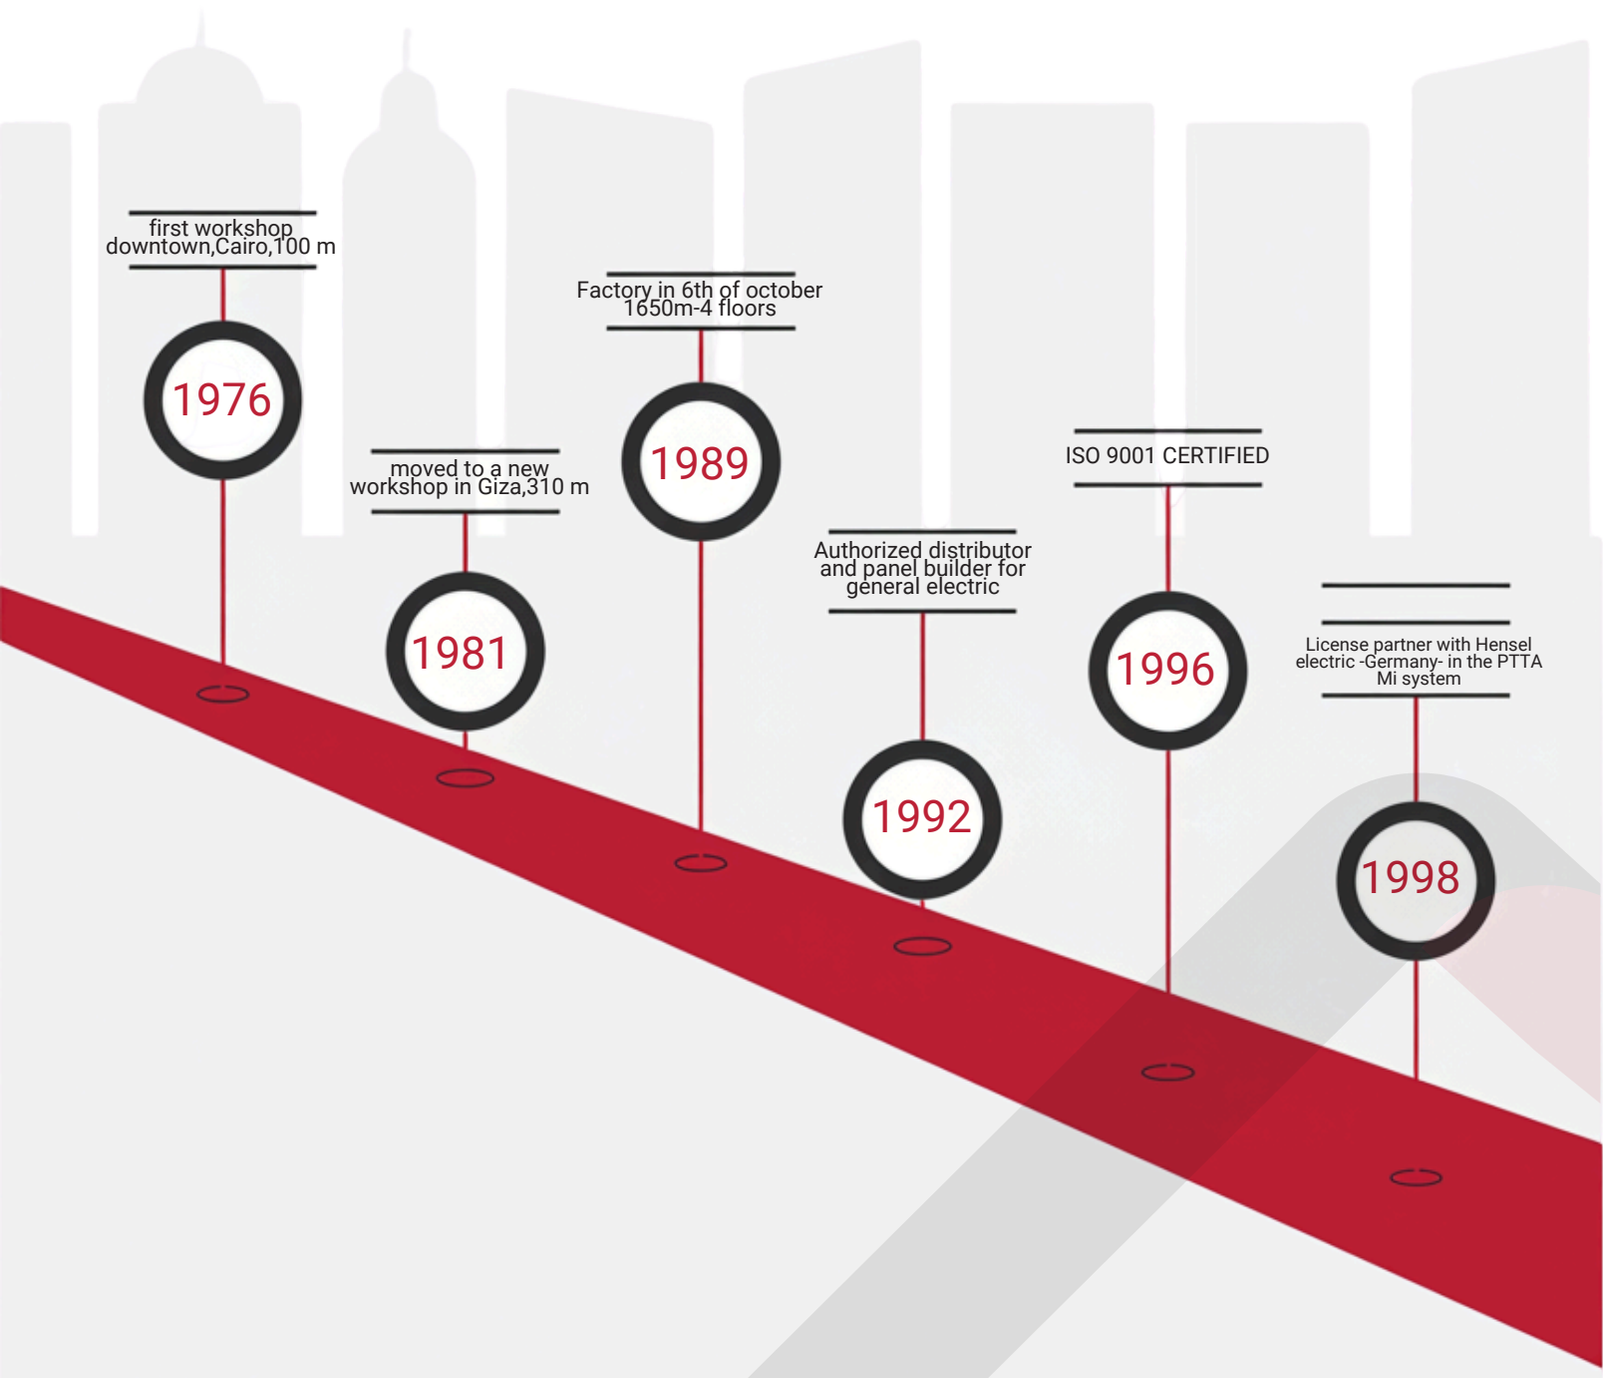
VISION

To be the most trusted and innovative partner in the electrical engineering industry across Egypt and the Middle East, setting the benchmark for quality, reliability, and customer value.

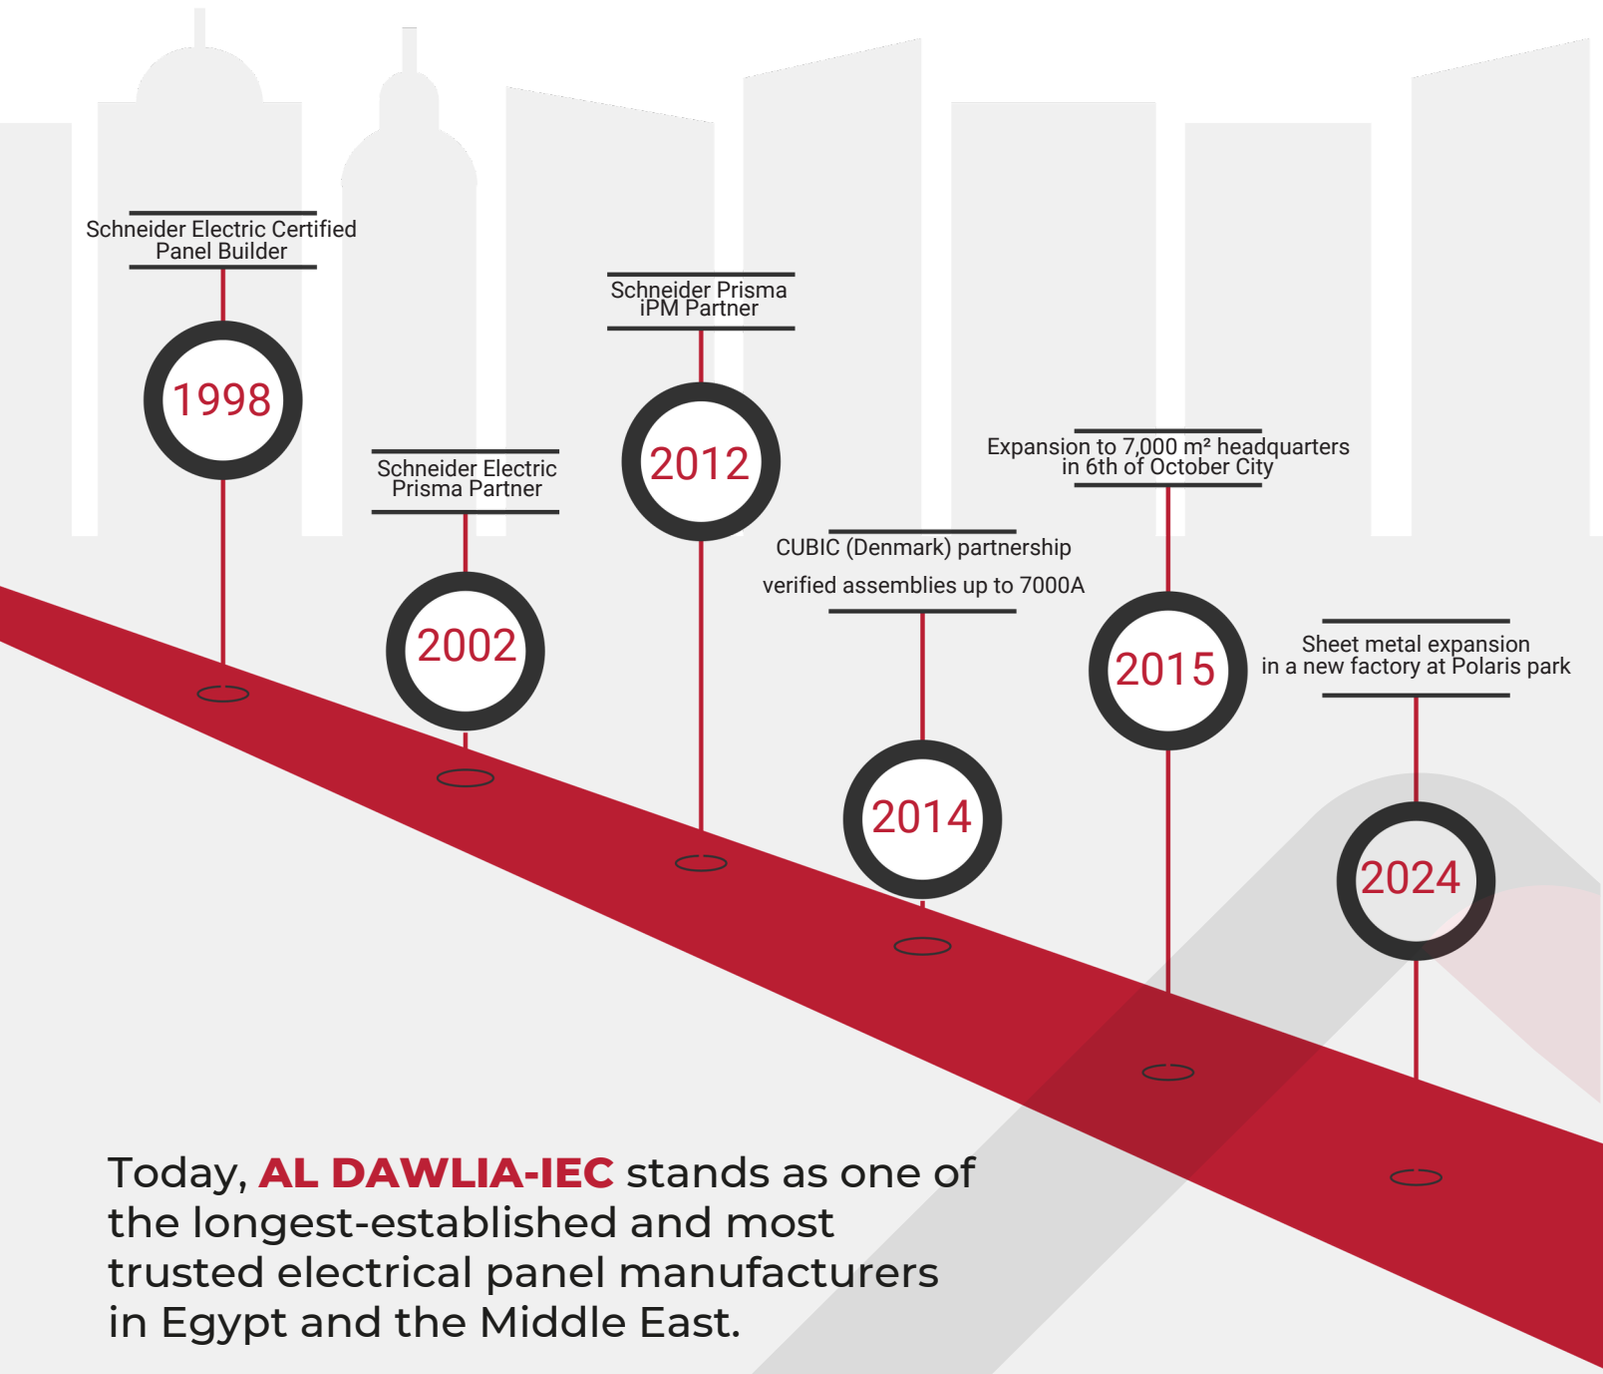
MISSION

To deliver world-class electrical engineering solutions through continuous innovation, customer-centric service, and strict adherence to international standards—ensuring safe, efficient, and sustainable power distribution for every project.

OUR MILESTONES



OUR MILESTONES



Today, **AL DAWLIA-IEC** stands as one of the longest-established and most trusted electrical panel manufacturers in Egypt and the Middle East.

Global Footprint

Our export-ready capabilities allow us to support regional infrastructure and industrial development at scale.

EBOX
EASY TO CONNECT

Smart Desk & Cable Management Solutions

EBOX delivers innovative desk boxes designed to support organized cable management and reliable connectivity in modern offices, meeting rooms, and collaborative spaces. Combining functionality with clean design, EBOX solutions enhance workplace efficiency while ensuring safe, flexible, and seamless access to power and data.

Business units

EPAN®

Electrical Power Load Centers

EPAN specializes in EP load centers engineered for the reliable distribution and control of electrical power. Designed as the service entry point for residential, commercial, and light industrial premises, EPAN solutions ensure safety, durability, and compliance supporting stable electrical performance across a wide range of applications.

SHEBITA ELECTRIC

E-Commerce & Retail Electrical Solutions

Shebita Electric is AL DAWLIA-IEC's dedicated online store and e-commerce platform, serving B2C customers with a wide range of electrical products tailored to everyday needs. In addition to direct online sales, Shebita Electric supports RFQs for large-scale projects, offering flexible solutions for contractors and businesses. With an established on-ground retail shop located in Downtown, Shebita Electric seamlessly combines digital convenience with trusted in-store expertise, ensuring accessibility, reliability, and responsive service.
